of the other people featured are Pushead - that guy who did the hardcore report for Thrasher Skate Mag, John Crawford who has given Baboon Dooley to the world, Bobby Ray who has regularly been doing Skinhead Knows Best, Robert Moore of Noise fanzine fame and Charred Remains creator, Doug & Lee of Discust Ink has contributed their usual ultra-violence, there's Shawn Kerry probably best known for her Skank Man the Circle Jerks use and last but not least is the gruesome work of Master Mad Marc Rude from San Diego. Those are the features that include short bio's. Just to make Roger happy we have included a bunch of cartoons that you will have trouble both reading and understanding from various people all across the country. We also have a special collaboration of talent from one Mr. Gary Panter who needs no introduction and Matt Groening that guy with all the insight from the L.A. Reader. There you have it, simple comic relief. But ah, you say we missed some important people. We know that, but this was really not an attempt to include everyone (I think we did a pretty good job tho). Maybe if we do another one of these you'll see people like John Holstrom, the guy who draws the Ramones all the time, he certainly could be in here, or maybe James from Agent Orange or any of a number of the great cartoon illustrators all across the country (Jeff J. where are you?). So that's the disclaimer, now enjoy !!!!!

NAME AND WHERE TO BE CONTACTED: J Crawford 7 So. Pt. Trr. Kinnelon NJ 07405

INFLUENCES: **Despair** comics by R Crumb. Face it, 100 years from now he will be the only person around today that will still count. They should put Despair in all the motels, right next to the bibles.

TRAINING: Learned to draw in High school. It was either that or die from boredom. I became a master desk top doodler. Scribbled my way through 4 years of math misery and stupidity.

ACCOMPLISHMENTS: Drawing for fanzines. I'm a fanzine cartoonist and proud of it.

FUTURE PROJECTS/AMBITIONS: Don't think about it too much. No Future, remember?

No slave to tomorrow be.

FAVORITE THEMES: Guy who thinks he knows it all walks into the most horrible situations life can offer. and gets the worst of it.

REASONS FOR INTEREST IN PUNK: For one thing punks like my stuff and print it.

But I go with the rebellion. Without that, little else makes sense.

Favorite Food: Blue cheese burger

Who's Buddy Holly?

I DUNNO

You Don't Know who Buddy Holly is? He WAS ONE OF THE GIANTS OF EARLY ROCK 'N' Roll. He's my Hero. He influenced THE BEATLES EVEN!

BUT AS HE SLAMS, HIS WIG GETS TORN OFF.

BUT AS THE PUNKS THRASH ON THE HIPPIY, their wigs come off. They are hippies, too!

Well, if we haven't heard of him, He MUST SUCK!

There's NO use trying to talk to you guys. You don't know Anything About Rock'n' Roll, And don't want to know.

You WANNA Fight?

No. You guys are doing more harm to yourself with Queer music, Than I could do in a fight.

Well, EVERYBODY ELSE IS DOING it!
